Provider Profile

Information provided by the provider describing their agency:

RMS was founded in 1980 and began managing community residences in 1982. Currently we service over 200 individuals who qualify for DDS services. The majority of our services are provided in CLA settings as our primary focus is residential services. We have developed some individualized day support options for individuals who live within our programs, as well as supports for individuals residing in supported living settings.

As an agency we take great pride in our ability to maintain our staff which enables us to provide stability and consistency of services. We strive to provide homelike environments and respond in a meaningful way to individuals' uniqueness and ever changing needs. Whenever possible we look within our own varied residential programs to find opportunities to meet individuals' needs so as to maintain them within our service umbrella. In addition we are committed to meeting regulatory requirements and working cooperatively with DDS and DSS in this ever changing and extremely challenging time.

As we are being considered as a possible provider by persons in need of services, we are committed to consider the impact of the dynamic created within a home when someone new moves in. It is our goal to have the most optimal environment for everyone.
